

## Glossary of Terms

**Day of Week:** A specific day of the week the game(s) were played.

**Month of Game:** The month of the year for the game (only football months are displayed).

**Spread:** The points that must be given (by the Favorite) or taken by the Under Dog - indicated by a +/-.

**Under Dog:** The team that is not favored by the sports books (takes points).

**Favorite:** The Team that must give points.

**SU (Straight Up):** How a Team does against another team based on the score of the game (no points/spread applied).

**OU (Over Under):** The total combined points for a game given by a sports book - the result is either Over, Under or a Push.

**ATS (Against the Spread):** How well a team does taking into account the spread (either taking or giving points). The result is either a Win, Loss or a Push.

**Stadium Type:** Whether the stadium is a dome or open air.

**Temperature:** The temperature that the game was played at (enter in a numeric value).

**Wind Speed:** The wind speed (in MPH) measured for the game (enter in a numeric value).

**Humidity:** The humidity measurement for the game (enter in a numeric value).

**Time Zone Change:** Indicates if you want to look for teams travelling East to West/West to East across time zones.

**Previous Game Location:** Whether the previous game was at Home or Away.

**Previous Game Result:** Whether the previous game was a win or loss.

**Previous Game Count:** Used in conjunction with the Previous Game Result. You specify the number of games to be included. The default value is 1.

**Bye Week:** A team that did not play the past week.

**Regular Week:** A team that played the prior week.

**Short Week:** A team that played the previous Monday night game.

**Long Week:** A team that played the week prior to the Saturday/Sunday games (i.e. Thursday night).

**Field Type:** The type of playing surface.

**Streak:** A continuous number of wins or losses

**3<sup>rd</sup> Down Efficiency:** The effectiveness of converting 3<sup>rd</sup> downs into 1<sup>st</sup> downs.

**4<sup>th</sup> Down Efficiency:** The effectiveness of converting 4<sup>th</sup> downs into 1<sup>st</sup> downs.

**Completion Percent:** The percentage of passes completed vs. attempted

**Turnover Differential:** The difference between the number of turnovers produced by the Offense and caused by the Defense.
